

# Jevin-Christian Wilson

[JAW062701@gmail.com](mailto:JAW062701@gmail.com) | (808)741-3903 | Ewa Beach, Hawaii

Highly motivated Computer Engineering Technology student with strong leadership, problem-solving, and technical skills. With hands-on experience in roles such as IEEE Treasurer and Student Assistant, I have demonstrated my ability to collaborate with diverse teams, manage projects, and deliver results under pressure. My passion for technology, along with my self-driven learning in data science and programming, equips me to take on challenges and contribute meaningfully to innovative projects. I am excited to apply my skills in roles that demand creativity, analytical thinking, and a commitment to excellence.

## Technical Skills

---

**Languages:** Python, JavaScript, HTML/CSS, C/C++, SQL

**Libraries:** NumPy, Pandas, Matplotlib, Seaborn, SciPy, Statsmodel

**Generative AI:** OpenAI, Gemini, Claude

**Tools:** GitHub, VS Code, Arduino IDE, Jupyter Notebook, Anaconda

## Experience

---

**Data Annotation Tech | Prompt Engineer** | April 2024 - September 2024 | Remote

- Evaluated and corrected AI-generated code, ensuring accuracy, efficiency, and quality in responses for coding tasks.
- Provided feedback and detailed annotations to enhance machine learning models' understanding of programming concepts.
- Gained hands-on experience with AI technologies and data-driven systems, contributing to improvements in AI training datasets.
- Maintained high standards of data integrity and accuracy throughout the annotation process.

**Uniqlo Co | Retail/Sales Asse** | May 2023 - Aug 2023 | Honolulu, Hawaii

- Provided Japanese-level customer service by assisting customers with inquiries and resolving product issues, ensuring a positive shopping experience.
- Managed inventory and maintained product displays to align with company standards, contributing to a well-organized store environment.
- Maintained knowledge of Uniqlo's product offerings to assist customers with informed purchasing decisions.

## Education

---

**Shawnee State University | Computer Engineering Technology** | Aug 2022 - May 2025

- Degree subject: Design, develop, test, and maintain computer systems and applications.
- IEEE Treasurer: Aug 2024 - May 2025
  - Managed the organization's financial operations, including budgeting, expense tracking, and financial reporting, ensuring accurate record-keeping and responsible financial management.
- Men's and Women's Soccer Student Assistant: 2022 - 2023
  - Develop strategic game plans based on opposition trends.
  - Present scouting reports to coaches, staff, and teams.
  - Conduct individual meetings with the player(s) for specific opposition debriefs.

**York University (NE) | Natural Science** | 2019 - 2022

- Degree subject: Engineering Prerequisites
- Men's Soccer Team: 2019 - 2022
- Future Bussiness Leader of America (FBLA): 2019 - 2020
- Degree: N/A

## Leadership

---

- Varsity captain on the high school soccer team for two years, demonstrating strong leadership skills and contributing to the team's success through effective communication, planning, and high-pressure decision-making.
- Served as Treasurer for IEEE, overseeing financial operations including budgeting, reporting, and expense management. Frequently stepped into Vice President responsibilities, such as leading meetings, coordinating events, and representing the organization in external communications, showcasing leadership and adaptability in financial and strategic areas.

## Projects & Abilities

---

### Merge - Dating Platform for Career Professionals

- Developed a full-stack dating platform targeting career-driven professionals using **React.js** frontend, **Node.js/Express** backend, and **MongoDB** database with LinkedIn OAuth integration for profile verification.
- Built a real-time messaging system with Server-Sent Events (SSE) for instant match notifications and live chat functionality between users who match with each other.
- Applied product management principles by conducting market research, defining user personas, and developing a freemium business model strategy targeting the \$9.65B online dating market.

### Drop Shipping

- Managed the supply chain by sourcing products from warehouses and factories, optimizing the process from production to consumer delivery.
- Provided excellent customer service, handling inquiries, resolving complaints, and ensuring timely and accurate information was delivered to customers.
- Developed and implemented creative strategies to drive traffic and target specific audiences, increasing engagement and sales.
